**Deadline:**

Tue., Mar. 16  
5:00 PM

# Computer Repair & Troubleshooting II

## RESTRUCTURED CLASSES:

The first part of each class period will cover basic skills such as working in safe mode, safe downloading, drivers, updates, programs, installs, researching, viruses/trojans, as well as working through the class syllabus and answering questions.

A lab computer will be set up each week for you to practice different tasks on during class time.

You may bring your own computer or laptop to work on during the second part of the class.

**Work on Basics, Improve Your Skills & Learn by Doing with Hands-On Practice**

**PLUS** (Optional) **Purchase a Computer Kit and Build Your Own Computer During the Last 2 Weeks of Class**

**Instructor:** Dale Nelson ~ AMD Sales & Services

**CAREER  
DEVELOPMENT  
PROGRAM**

**Freeport Learning Center**

### **To Sign Up:**

Contact the Freeport Learning Center at 815-616-5294 (**be sure to indicate shift preference**), or sign up in the entry area of the Union Benefits office.
